PROFESSIONAL PROFILE

Full-Stack Developer focused on the Laravel and Next.js ecosystems. I specialize in building end-to-end web applications, from back-end architecture to high-performance user interfaces. My commitment is to deliver clean, tested, and maintainable code to build reliable and scalable products.

PROFESSIONAL EXPERIENCE

Project Manager Laravel Developer
ICORP

- 📅 2025 📍 Yaoundé, Cameroon
- Led the end-to-end design, management, and development of the IMA platform, an ERP-like application for managing competitive exam preparation, using Laravel for the entire development lifecycle.

Software Development AI Intern
CENADI

- 📅 07/2025 – 09/2025 📍 Yaoundé, Cameroon
- Designed and developed an AI agent for fiscal optimization, integrated into a full-stack application (FastAPI for the API, Next.js for the front-end), adhering to Agile and clean code best practices.

Full-Stack Developer
Pynfi Project (Personal Finance App)

- 📅 2025 📍 Personal Project
- End-to-end development of a financial management application with **Laravel** and **Blade**, including data visualization features and a secure production deployment.

LEADERSHIP ENGAGEMENT

President of the Computer Engineering Club
ENSPY

- 📅 2024 – 2025 📍 Yaoundé, Cameroon
- Managed a team of 24 members on concrete projects to master key technologies (Laravel, React, Spring Boot, etc.).
 - Organized workshops and a **hackathon** (+60 students) to accelerate skill development and professional readiness for junior members.

TECHNICAL SKILLS
